PROTECT YOUR MOTORCYCLE FROM THEFT

- Lock your ignition and remove the key. Many motorcycle thefts occur when the ignition is shut off, but not locked.
- Use a high-quality lock and chain to secure the motorcycle. Secure the chain through the motorcycle frame versus the wheels which can be easily removed.
- Beware of locking your motorcycle to items that can be easily cut such as a wooden post or chain link fence.
- Park the motorcycle behind an item such as a parked car.
- Install a GPS recovery system on the motorcycle.
- Store your motorcycle in a secured location such as a garage, storage shed, or locked/fenced area.
- Consider adding a motorcycle anti-theft, or security system.
